Crop Insured
The fall and spring planted canola and rapeseed crop insured will be Oleic Canola and High Erucic Rapeseed. Types and practices are specified on the special provisions in the counties of Idaho, Oregon, and Washington listed below.

Availability
Oregon: Gilliam, Morrow, Sherman, Umatilla, Union, Wallowa and Wasco counties

*Only spring types insurable. All other counties offer insurance for both fall and spring types.

Yield and Revenue Insurance
One policy provides the choice of three plans:
Yield Protection: Insurance coverage only providing protection against a production loss.
- **Revenue Protection:** Insurance coverage providing protection against loss of revenue due to a production loss, price decline or increase or a combination of both.
- **Revenue Protection with Harvest Price Exclusion:** Insurance coverage providing protection only against loss of revenue due to a production loss, price decline or a combination of both.
- Rapeseed type is eligible for options unique to the revenue plans (i.e., enterprise or whole farm units, but no price protection is provided.

Projected and Harvest Price
Commodity Exchange Price Provisions (CEPP) Contains information necessary to derive the projected price and the harvest price for the insured crop as applicable. Information includes the price discovery period, release dates, board of trade’s utilized, and additional pricing information. Available at agent’s office and at the RMA Web site: http://www.rma.usda.gov.
The projected price is used to calculate the premium, replant payment and any prevented planting payment. The harvest price will be used to value production to count under the Revenue Protection Plan and the Revenue Protection with Harvest Price Exclusion plans of insurance.

Production Guarantees
Yield Protection guarantee: Determined by multiplying the production guarantee by the projected price. The Harvest Price is not used.
Revenue Protection guarantee: Determined by multiplying the production guarantee (per acre) by the greater of the projected price or the harvest price.
Revenue Protection with Harvest Price Exclusion guarantee: Determined by multiplying production guarantee (per acre) by the projected price.
