

# WSU Winter Canola tour

## Wednesday, May 24, 10:00 a.m.

### St. John, WA

#### **Tour topics:**

- Winter canola field operations and production history (Ross Jordan)
- Large-scale winter canola variety trials
- Nitrogen rate and timing in winter canola (Haiying Tao, WSU)
- Overwinter nitrogen cycling in winter canola (Karen Sowers, WSU)
- Blackleg and pest scouting tips; report on plant samples coming into the WSU Plant Pest Diagnostic Clinic (Karen Sowers and Rachel Bomberger, WSU)
- Canola market and update from Viterra/Pacific Coast Canola (Daniel Stenbakken)
- Dual-purpose winter canola – grazing and seed (John Pearson, Colfax)
- PNW Canola Grower Association update (Karen Sowers, WSU)

#### **Winter Canola Varieties**

Amanda  
Claremore  
Edimax  
Griffin  
HyCLASS 225  
Largo

#### **DIRECTIONS to field**

From St. John, drive west 2.5 miles to Gordon Hamilton Rd. Turn left (south) and drive 1.75 miles to the canola field at Dodge and Rogers Rd. There will be directional signs to the tour.

*Many thanks to cooperator Ross Jordan, all the presenters, the WOCS team, and Viterra.*
