

CropS 510, Dept. of Crop and Soil Sciences, Fall 2008

Crop Science Seminar Series

Seminars are Mondays @ 3:10pm, Johnson Hall 204 unless otherwise noted

September 8 (@ 1:10pm, joint w/Soil seminar)

Lynne Carpenter-Boggs, Cathy Perillo, Rita Abi Ghanem, Karen Killenger, Dept. of Crop and Soil Sciences and Dept. of Food Science, WSU
Iraqi Ag Extension Revitalization Project: A Report from the Women's Session

September 15

Greg Rebetzke, Wheat Breeder, Commonwealth Scientific and Industrial Research Organization (CSIRO), Canberra Australia
Opportunities in Implementing a Physiological Understanding in Genetic Improvement of Wheat

September 22 (@ 4:10pm, Johnson Hall 343, joint w/Plant Pathology seminar)

Tim Murray, Plant Pathologist, Dept. of Plant Pathology, WSU
Conservation and Use of Crop Genetic Diversity to Control Pests and Diseases in Support of Sustainable Agriculture

September 29 (@ 3:10, joint w/Soil seminar)

Crop & Soil Science Students
Washington State Tour Report

October 6

Tim Miller, Extension Weed Scientist, Dept. of Crop and Soil Sciences, WSU-Mt. Vernon
Northwestern Research & Extension Center
Weed Management Studies in Western Washington Riparian Areas

October 13

Jinguo Hu, Supervisory Research Geneticist and Research Leader, USDA-ARS Plant Germplasm Introduction and Testing Unit, Pullman
The Sunflower Crop: Production, Research and Prospect

Special Seminar, Thursday, October 16 (@10:10am, Johnson Hall 207)

Bonnie Furman, Horticulturist, USDA-ARS Palmer Research Center, Palmer, AK
Arctic and Subarctic Plant Genetic Resources Conservation, Research, and Information Management

October 20

Dipak Santra, Assistant Research Professor, Dept. of Crop and Soil Science, WSU
TBA

October 27 (delivered from Prosser via WECN)

Stephanie Greene, Geneticist/Curator, USDA-ARS National Temperate Forage Legume Genetic Resources Unit, Prosser, WA
Fostering Goodwill Between Russia and Neighboring Countries: the Interactive Agricultural Atlas Project

November 3

Kulbir Singh, Crop Science Ph.D. Candidate, WSU
Role of Novel Inactivation Pathways in Brassinosteroid Homeostasis

November 10 (@ 1:10, joint w/Soil seminar)

Stephen Machado, Dryland Systems Agronomist, Oregon State University, CBARC
Does Intercropping Have a Role in Modern Agriculture

November 17

Amy Hetrick, Crop Science Ph.D. Candidate, WSU
Wheat Yield Determined by Variable Plant Height

November 24

Thanksgiving Break, no seminar

December 1

Aaron Carter, Crop Science Ph.D. Candidate, WSU
QTL: The Good, the Bad, and the Ugly

December 8

Tom Drader, Crop Science Ph.D. Candidate, WSU
Brachypodium: Lost Cousin of the Triticeae—A Look at Comparative Genomics in the Grasses

World Class. Face to Face.
